EXPERIENCE

Associate Product Manager, *Digitap.Ai*

12/2024 – Present

Bangaluru, Karnataka

- Built **5+** digital onboarding and alternate risk assessment products/APIs from **0→1** for enterprise loan origination platforms.
- Owned the roadmap and end-to-end delivery of **8+ fintech products**, including PRDs, API design, and technical documentation, working closely with **75+ enterprise customers** to launch **20+ use cases**.
- Revamped the **Aadhaar Verification** product, improving success rates by **7%** and increasing daily API traffic from **20K to 60K+**.
- Cut **Face Verification** costs by **80% (₹1L → ₹20K/month)** by replacing a third-party provider with an in-house solution, while improving matching accuracy by **2%**.
- Strengthened the **Face Liveness** product by introducing **Deepfake Detection, Injection Attack Detection, and accessibility enhancements**, achieving **97% accuracy** for enterprise deployments.
- Improved the **eSign** platform by evaluating **3+ vendors**, implementing intelligent vendor switching, and reducing transaction costs by **33%**, while ensuring uninterrupted service during provider outages.
- Launched a **Document Quality Check API** that reduced avoidable VKYC failures by **25%** through upfront document validation, improving onboarding efficiency.
- Created **3+ Lovable prototypes**, shortening requirement validation and saving time across teams.
- Led **50+ customer demos, workshops, and GTM initiatives**, contributing to a **17% increase** in product adoption.
